Sale of School Lands.

By order of the County Court of Iron County, Missouri, made at the August Term, 1907, and at the regular term thereof, I, John I. Marshall, Sheriff of said county, was ordered to offer for sale all of the Sixteenth Section, Township 34, north, of range 1 east; and in obedience to said order and the power thereby vested in me, I will, on

Tuesday, October 29th, 1907,
offer for sale at public vendue, to the highest bidder at the east front door of the court house, in the City of Ironton, Iron County, Missouri, and during the session of the October Term of the Circuit Court within and for Iron County, the above described real estate.

In tracts of forty acres each; and at not less than \$1.25 per acre, on credit of twelve months with good and sufficient security, with interest at the rate of six per cent. per annum from date of sale; the purchaser or purchasers, however, have the right to pay the same in cash at time of sale, or any part thereof.

JOHN I. MARSHALL,
Sheriff of Iron County.

SCHOOL FUND MORTGAGE SALE.

Whereas, G. W. Scoggins, and Caroline Scoggins, his wife, by their certain School Fund Mortgage deed, dated the 11th day of March, 1892, which said mortgage deed was duly recorded in the office of the Recorder of Deeds for Iron County, Missouri, in Book 38, at page 49 of said book, conveyed to Iron County, Missouri, for the use and benefit of the Capital School Fund of said county (therein more particularly described and set forth) the following described real estate, lying and being in said Iron County, State of Missouri, described as follows, to-wit:

South part of the southeast quarter of the southwest quarter of section two, containing thirty acres; and the south part of the northwest quarter of the southwest quarter of section two, containing ten acres; and the southwest quarter of the southwest quarter of section two, containing forty acres; and the northeast quarter of the southeast quarter of section three, and the northeast corner of the northwest quarter of the northwest quarter of section eleven, containing three acres; and the north part of the northwest quarter of the northwest quarter of section eleven, containing two and fifty-eight one hundredths acres; and all said real estate lying and being in township thirty-two, range 3 east, and containing in the aggregate 169 30-100th acres.

Which conveyance was made to secure the payment of one thousand dollars, belonging to the Capital School Fund of said county, as follows, to-wit:

To the Public School Fund of Township 33, range 4 east, \$500.

To the Common School Fund of said county, \$500.

For which said amounts the said G. W. Scoggins, as principal, with Wm. T. Gay and John Schwab, Jr., as securities, executed their bond for the sum of \$1000, of even date with said mortgage, bearing interest at the rate of six per cent. per annum from date, bearing date the 11th day of March, 1892, and payable on the 11th day of March, 1893, which said bond has become due and remains unpaid.

And, whereas, among other things, it is provided in said deed of mortgage that if default should be made in the payment of the principal or interest, or any part thereof, at the time when the same should severally become due and payable according to the tenor and effect of said bond, that the then acting Sheriff of Iron County, Mo., should have power without suit on said deed of mortgage to proceed and sell said property conveyed and mortgaged in said deed; and, whereas, default has been made in the payment of said bond in said deed of mortgage described, by both principal and sureties;

session of the Circuit Court of said county, sell at public vendue, to the highest bidder, for cash in hand, the above described real estate, to satisfy said bond and mortgage and the cost thereof.

THE cry of Oklahoma is "back to the people!" Which is only another way of saying she is Democratic.

Is it possible that Rube Oglesby is going to essay the Vanderbilt role—"The people be d—d"? I advise him that it takes millions to play the part successfully. It is far above, and beyond a public servant.

THE rank and file of the Democratic party will formulate the platform and place the candidate upon it in 1908. Bryan will be the candidate, and he and the platform will fit "like the paper on the wall."

BURTON convicted; Dyer acquitted; Borah—well! The grand jury which found the bill against the latter has been abused and U. S. Attorney Rief is catching thunder from the powers that be for having dared to assist in indicting "a friend to the administration." Justice as she is to-day knows her unfriends and favorites, and has her eyes wide open.

IN the W. C. T. U. column in this issue is part of an address by Rev. Bushnell wherein he advocates and defends Prohibition on the score that it is not an infringement on personal liberty further than is demanded by "the welfare of the State." There has never been a measure of tyrannical restriction and oppression put into law but "the welfare of the State" was made its justification. The Pagans of Rome deemed it for "the welfare of the State" that Christians should be persecuted and suppressed; the intolerance of the Middle Ages sheltered itself behind the same plea; and our Puritan Fathers bored the Quakers' tongues with red-hot irons and drove Roger Williams to the wilderness because it was for "the welfare of the State." Heretives—that is, people who did not believe with the cruel majority—in all ages prior to individual liberty of thought were born to hell-fire, were an abomination to the Lord, and He would become wroth with the State if it tolerated them. Time was within the present era that law, for "the welfare of the State," decreed the cut and fineness of the clothes the people should wear; limited the sum they were to receive for their labors, etc., etc. "The welfare of the State!" It is a most comprehensive plea, and many a crime against humanity has been committed in its name. Preach what dogma you will, but urge not in its behalf, I pray you, to me, your plea of "the welfare of the State."

A "New" American Incident.

How Theodore's pulses must have quickened when he read the dispatches reciting the manner in which a Pullman conductor on an Arizona railroad, forcibly ejected a couple of Russian gentlemen from the compartment for which they had paid in order that the President's daughter and Nick Longworth, her husband, might have that same compartment. No so much that his daughter was favored is the feature that pleases Roosevelt, as the evidence it gives that the country is progressing in the development of the caste idea, and the further demonstration that Americans have become so deadened to the old foolish errors of the right of every man to stand equal before the law that we scarcely notice the incident. Such a thing would doubtless have caused intense indignation in Russia but it is allowed to pass here with a mere mention in the newspapers. And Nick Longworth who has the honor to represent in the Federal Congress a people supposed to detest all caste distinctions with all the force of their natures, and whose fundamental governmental principle is alleged to be the equality of all men, complacently took possession of the compartment after the two owners of the same had been thrown out. If Congress had a splinter of its old time integrity and a democracy, it would demand an explanation of Mr. Longworth, but as it is owned by the Trusts, it doubtless secretly applauds Longworth's assertion of his "rank." But I'd like to know what the two Russian gentlemen, coming from the land of autocracy and of foolish artificial distinctions, think of this exhibition of "democracy."

Incident filled Theodore with joy. It is so delightfully and beautifully comfortable to the Rooseveltian idea of the fitness of things. It is Rooseveltian in its conception, of "democracy." These conceptions he applies to the White House where he has set up a royal court, with all sorts of fool rules, to precedence and rank with royalistic flub-dub of every known variety as trimmings. I do not doubt that Theodore will reward a man so heartily in accord with his idea of the "respect" that should be shown to "people of rank" in this Republic. I look to see him "command" the presence of that conductor in Washington and when he is there, make him satrap of one of his Royal Highness' "dependencies" beyond seas.—*The Censor.*
